Premier®
Award-winning Hygiene Product Suite

Innovation • Efficacy • Ergonomics • Safety

*No matter what your dental hygiene needs are,*
Premier’s got you covered!

*new!* AeroPro® Cordless Prophy System - See page 1
*new!* PremierAir® Single-ended Probes and Explorers - See pages 22-23
*new!* Vac Attak™ GREEN EPA-Compliant Evacuation System Cleaner - See page 27
*new!* Sleeve-It™ Disposable Barrier Sleeves - See page 29
new! AeroPro®
The New Standard in Cordless Prophy Handpieces

Now there's finally a light-weight, ergonomic, cordless and pedal-less handpiece that gives you the mobility you want, the choice of prophy angles you like, and the control you need.

Based on extensive input from dental professionals, AeroPro’s innovative design helps reduce hand fatigue by allowing you to rotate the angle 360° for improved intraoral access and comfort. Its quick-touch button enables fingertip control for easy switching between low and high speeds. Its quiet yet powerful motor maintains a consistent speed during polishing – no extra pressure required.

ChargeSMART™ Battery Technology gives you long-lasting power to get through the workday. And yes, AeroPro® is CDC-compliant with a convenient infection prevention protocol. Best of all, your patients get a great polish. Every time.

- Accepts most disposable angles
- Can be rotated 360°
- Quick-touch button
  - Easily controls speeds
- Dimpled silicone grip
  - Improves tactile feel while preventing slippage
- Quiet and powerful motor
  - Constant speed without extra pressure
- ChargeSMART™ Battery Technology
  - Charges quickly and provides lasting power for all day use
Mobility
✓ Total mobility with no cord drag or rheostat
✓ ChargeSMART™ Battery Technology gets you through the day

Choice
✓ Works with most disposable prophy angles
✓ Quick-touch button to easily switch between speeds

Control
✓ Ergonomic, lightweight, well-balanced design
✓ Rotatable prophy angle for 360° intraoral access and comfort
✓ Compliant to CDC infection prevention guidelines

AeroPro® Complete Package Shown
Bioactive Release - Remin - Recharge

Maximize protection with award-winning BioCoat® Bioactive Resin Pit and Fissure Sealant. BioCoat with SmartCap™ Technology maintains the strength and durability of a heavily filled resin sealant, while providing the benefits of extended fluoride release.

BioCoat® is the only resin sealant with bioavailable ions

SmartCap Technology utilizes patented semi-permeable resin microcapsules filled with ionic solutions of fluoride, calcium and phosphate. The bioactive ions diffuse in and out of the sealant for long term release.*

Greater fluoride uptake for long-term protection

- Greater fluoride uptake in the presence of calcium and phosphate ions strengthens enamel.
- Calcium, phosphate and fluoride ions strengthen tooth enamel and protect against acid attacks.
- Exceptional retention seals margins against microleakage.

SmartCaps are rechargeable

SmartCap microcapsules have the ability to recharge from free ions of fluoride, calcium and phosphate found in saliva through concentration gradient dynamics.

---

*Charts represent cumulative release data.

**Outstanding barrier protection**

BioCoat® is a 56% filled resin sealant providing excellent long-term resistance to wear with a compressive strength comparable to flowable composites. The resin formula is very resistant to oral solubility - a problem glass ionomer and resin-reinforced glass ionomers sealants cannot overcome.

Heavily Filled & High Compressive Strength
- Excellent retention and durable: resists cracking, chipping and fractures
- Lowers polymerization shrinkage and gap formation
- Maintains a smooth surface to avoid accumulation of plaque and debris

Excellent Flowability
- Penetrates and adapts into the smallest pits and fissures for a secure seal
- Highly retentive (Shear bond strength of 32 MPa)
- Bubble-free application

![Shear Bond Strength (SBS) to Enamel](image)

BioCoat’s impressive shear bond strength of 32MPa ensures BioCoat’s retention over the years.

3001530 BioCoat Standard Pack
- Contains: One 1.2ml syringe and five disposable applicator tips
- Shade: White

3001531 BioCoat Value Pack
- Contains: Four 1.2ml syringes and 20 disposable applicator tips

3001532 BioCoat Bulk Pack
- Contains: Twenty 1.2ml syringes

BioCoat is not formulated with Bisphenol A (BPA).

---

SmartCap Technology, developed in partnership with Creighton University, utilizes patented** semi-permeable resin microcapsules.

In BioCoat, the rechargeable SmartCap microcapsules are filled with ionic solutions of fluoride, calcium and phosphate. Tooth surfaces, both in contact and adjacent to the sealant, benefit from the extended release of these ions. The demineralization cycle is disrupted and the remineralization is supported. The exchange of ions and recharge of microcapsules extends maximum protection without putting the sealant’s physical integrity at risk.

Visit premierdentalco.com/bioccoat for more information.

Enamelon®
Preventive Treatment Gel

Be the Hero!
Next time patients complain of sensitivity or dry mouth symptoms, come to the rescue with Premier’s Enamelon Preventive Treatment Gel.

Enamelon stops sensitivity in its tracks. Its patented 2-way protection power of Stannous Fluoride and a remineralizing technology with the components of Amorphous Calcium Phosphate (ACP) help strengthen tooth enamel and are clinically proven to desensitize teeth. In fact, Enamelon helps prevent caries by providing 3x greater protection against acid challenges than the 5000ppm F pastes. Enamelon also reduces symptoms of dry mouth tissues through its proprietary long-lasting Ultramulsion coating that soothes and lubricates.

Enamelon is your professionally dispensed solution to give your patients the relief they want and the enamel protection they need. Every time.

Treats sensitivity

Occludes tubules with ACP & Fluoride
Dentinal hypersensitivity is under-reported by the patient. Enamelon Treatment Gel is your professionally dispensed solution.

Enamelon® contains stannous fluoride along with calcium and phosphate ions that have proven effective for tubule occlusion. By blocking the exposed tubules with a combination of stannous (tin) ions along with fluoride, calcium and phosphate salts, a physical barrier is created that covers open dentinal tubules to prevent external stimuli from causing pain or discomfort.

Soothes dry mouth tissue
Enamelon provides an immediate and long lasting soothing, moisturizing and lubricating effect.

Through the use of proprietary co-polymers, Ultramulsion® benefits your patients by providing a long-lasting coating that lubricates and soothes the soft tissues of the mouth.

Enamelon is the only stannous fluoride preventive treatment gel that has been shown in a clinical trial to help reduce many sensory symptoms of dry mouth.

### More protection
Less fluoride<sup>6,9</sup>

Enamelon provides 3x greater reduction of enamel solubility<sup>6</sup>

- Reduces the solubility of enamel, preventing demineralization of the tooth surface when exposed to acids
- Decreases enamel solubility by 56.91% compared to 18.78% with 5000 ppm fluoride paste, providing 3x greater protection against acid challenges<sup>6</sup>
- Provides over 2x more beneficial fluoride uptake with only one-fifth the amount contained in 5000 ppm fluoride toothpastes<sup>9</sup>

### Dispense with confidence!

> “For patients that have tried a sensitive toothpaste and have not had any relief, we offer the Enamelon Treatment Gel for the generalized sensitivity. For our dry mouth patients, we offer the Enamelon to help aid in the relief to dry mouth tissues, as well as protect them from caries.”

- Dr. P., DMD & C. B., RDH, BS, Connecticut

4.0 oz (113 g), Clean Mint, 12/case

Not available in Canada.

---

10. CRA=Caries Risk Assessment curriculum. (ADA, AAPD, CAMBRA, etc) / 11. Early Childhood Caries is defined as the presence of one or more decayed (non-cavitated or cavitated lesions), missing (due to caries) or filled tooth surfaces in any primary tooth in a preschool-age child between birth and 71 months of age. The term “Severe Early Childhood Caries” refers to “atypical” or “progressive” or “acute” or “rampant” patterns of dental caries.

12. ICDAS (International Caries Detection and Assessment System) is detection and assessment system classifying states of the caries process. www.icdas.org
Enamelon® Toothpaste contains the same clinically proven active ingredient optimized with calcium and phosphate ions as the preventive treatment gel, but in an 1150 ppm F formulation with a low abrasive for everyday use.

Your patients can count on Enamelon to:

- Stop sensitivity due to cold, heat, acids or sweets
- Promote remineralization and inhibit demineralization
- Harden tooth enamel—strengthens teeth better than 5,000 ppm F toothpastes
- Deliver more fluoride uptake to the teeth
- Soothe & moisturize dry mouth tissues
- Help prevent gingivitis & cavities
- Low-abrasive toothpaste (RDA of 39) with no SLS, gluten or dyes

Enamel Pro®
Prophy Paste

The only prophy paste with ACP technology for 31% more fluoride uptake

Not all prophy pastes are the same! Premier’s innovative remineralization prophy paste is uniquely formulated to deliver ACP (amorphous calcium phosphate). Why does that matter? Because increased fluoride uptake is critical to strengthening tooth enamel and reversing the demineralization process. Plus, Enamel Pro prophy paste provides an intense polish and shine. Your patients will love their lustrous whiter, brighter teeth. ¹⁶, ²¹

And the colorful swirl cups and great tasting newest flavors – ChocHazelnut and Mixed Berry – will keep them smiling. Every time.

Enamel Pro® Varnish
5% Sodium Fluoride Varnish

Varnish Best Practice for Your Practice
All varnishes are not equally effective! Enamel Pro Varnish is the first advanced fluoride varnish optimized to provide beneficial tooth-building ions of calcium and phosphate. Uniquely designed to create substantive forms of CaF$_2$ and ACP, Enamel Pro Varnish is ideal for reducing dentinal hypersensitivity and post-operative sensitivity. In fact, independent studies show Enamel Pro Varnish delivers more enamel fluoride uptake and greater fluoride release than 3M™ Vanish™. And unlike other varnish, Enamel Pro Varnish is proven to diminish hydraulic conductance by 73%. Every time.

Indications for Use
Enamel Pro® Varnish is a fluoride containing preparation for the treatment of dentinal hypersensitivity, and for the reduction of post-operative sensitivity.

2pro®
Total Access Disposable Prophy Angle

Award-winning 2pro is the versatile 2-in-1 disposable prophy angle that helps you easily access hard-to-reach areas of the mouth quickly. One cup. One tip. No extra cost or time to switch. Which means a better cleaning experience, happier patients and less chair time! 2pro is your all in one polishing angle. Every time.

- Patented gearless, jam-free design - quiet, smooth polishing
- Angled neck for easier total access - makes hard-to-clean areas a breeze
- Advanced 2-in-1 design - saves time, improves workflow
- Convenient access tip – efficiently cleans around ortho bracket

Get Total Access!

2pro cleans and polishes all tooth surfaces with its unique cup and tip design!

No added expense for tips or brushes!

Use the cup to polish all tooth surfaces. Use the tip for gingival and proximal areas, occlusal surfaces, veneer margins, around implants and orthodontic brackets.

“I absolutely love the Premier® 2pro® total access soft disposable prophy angle. The cup shape reduces splatter and is easy to use. Being able to remove the cup and use the rubber point is great. This allows access around the orthodontic brackets and wires.”

- Sandra B., RDH, Pennsylvania
**Perfecta® REV!® 14% Hydrogen Peroxide**

Only 15 minutes, once a day!
The ideal combination for compliance - short weartime and less sensitivity.

**Gel – Powerful whitening Gel**
- 14% Hydrogen Peroxide – 55% higher concentration than the competition
- 15-minute daily wear time – Half the time of other brands
- Patented Water based gel that hydrates teeth as it whitens resulting in 66% less sensitivity than the leading strips 32,33

**Rinse – Refreshing Finishing Rinse**
- Provides added boost to final whitening effect by activating any residual hydrogen peroxide ions
- Formulated with vitamin C that promotes healthy gums after treatment
- Patients will love the clean & fresh cool mint feeling

Suggest a REV! Refresher for all your previous whitening patients. Get them back to your office and keep them smiling white.

4000142 REV! Six Patient Paks (To order in Canada: 4000152)
Each Patient Pak is a complete 2-week treatment. Contains 2 - 3cc syringes with 4oz (118.3ml) REV! finishing rinse. You add trays and tray cases.

4000141 REV! Six Refresher Paks (To order in Canada: 4000151)
Ideal for touch-ups. Contains 1 - 3cc syringe with 4oz (118.3ml) REV! finishing rinse. You add trays and tray cases. Available individually through dealer.

---

**Perfecta® Bravó® 9% Hydrogen Peroxide**

Only 30 minutes, once a day!
Patented water-based formulation hydrates teeth as they whiten to avoid sensitivity.

4000092 Bravó Patient Pak
Complete 2-week patient treatment. Contains 4 - 3cc syringes.

4000094 Bravó 50 Pak
Contains 50 - 3cc syringes. You add trays and tray cases.

4000091 Bravó Touch-Up Pak
Contains 1 - 3cc syringe.

Not available in Canada.
**ComfortView® Lip & Cheek Retractor**

- Retracts lips and cheeks for optimal buccal and gingival access
- Maximum visibility and patient comfort
- Suitable for use in diagnostic, preventative, therapeutic dental applications, in-office whitening, digital impression scanning and intra-oral photography
- Autoclavable, latex free

9061381  Universal ComfortView Lip and Cheek Retractor - 2 per box (white)
9061383  Small ComfortView Lip and Cheek Retractor - 2 per box (blue)
9061382  ComfortView Refill Cushions - 10 per pack

PremierAir®
Hygiene and Diagnostic Instruments

- Comfortable, balanced, ergonomic handle with non-slip grip means less pressure to maintain control and less hand fatigue
- Exceptionally light, rugged polymer handles and tested extensively to ensure a long working life
- Made to high standards by master craftspersons in the U.S.A.

Hygiene Instruments

- Precision tips made with 440A stainless steel and SmartSharp® Technology keep edges sharp and well defined

Probex and Explorers

- Probes are easy to read and resistant to wear
- Explorers have excellent tactile sensitivity and sharp points for easy detection of tooth texture and surface irregularities

Premier’s innovation in sharpening technology allows you to start sharp and work smart:

- Easily maintain sharpness – proprietary process ensures a well defined edge you can easily re-sharpen as needed
- Apply less pressure and use fewer strokes – achieve a glass-like tooth surface
- SmartSharp® available on Premier Scalers and Curettes – at no additional cost

**Gracey 15/16**
- BEUL-05653 + BE-1005026 + LT-1004819
- LTO-1004569
Angled shank, designed to reach mesial surfaces of posterior teeth

**Gracey 17/18**
- BEUL-05655 + BE-1005027 + LT-1004820
Highly angled shank for reaching distal surfaces of posterior teeth
After probing, InSite™ scalers provide added visual confirmation that you have reached the base of the pocket.

**Gracey Variations**

Pocket Scalers (PS) and Mini Pocket Scalers (MPS) have a slender and longer terminal shank to provide access into deeper pockets. MPS has the same slender tip design as PS, but with half the blade length. InSite PS and MPS have a depth gauge at 5mm through 10mm offering an excellent visual guide.

**Big Easy Ultralite** Pocket Scalers (PS) and Mini Pocket Scalers (MPS) do NOT feature the depth gauge found in InSite Scalers.

**Rigid** Gracey designs have a thicker shank than the original Graces, but are overall slightly shorter for increased strength when removing heavy calculus.

Big Easy® Ultrasonic Inserts
Big Easy cushion-grip ultrasonic inserts for improved ergonomic grip and comfort.
- Ergonomically designed large 7/16” diameter for maximum comfort and decreased fatigue
- Compatible with most magnetostrictive handpieces

Big Easy Implant Ultrasonic Inserts
- Permanently attached PEEK tip will not scratch implants
  - PEEK is considered an advanced biomaterial used in medical implants
  - PEEK is non-abrasive and proven robust for long-lasting insert tips
  - Effectively removes biofilm and calculus

New Vac Attak™ GREEN is a high-performance evacuation system cleaner designed to comply with the EPA’s 2020 Clean Water Act. Using a combination of powerful enzymes with powerful surfactant chemistry that gets the job done, Vac Attak GREEN’s environmentally-friendly formula meets the ADA’s best management practices. With a neutral pH, its non-foaming and non-corrosive formula has no chlorine or oxidizing agents. Safe and gentle for every day use with all amalgam separators, this evacuation system cleaner is still Vac Attak-tough to clean your lines of bio-burden, prophy paste and fluoride gels.

- Powerful enzymatic, EPA-compliant cleaner
- Compatible with amalgam separators
  - pH neutral
  - No chlorine
  - No oxidizing agents
  - Non-foaming
  - Non-corrosive
- Up to 80 cleanings per jar
- Economical and easy-to-use powder
- Fresh citrus scent

9011105 Six, 800g jars with scoop dispenser
Brite Shield™
Instrument Cleaner and Protectant

- Static soak and ultrasonic cleaner
- Removes glass ionomer, carboxylate, zinc phosphate cements and bio-burden
- Unique passivation process coats instruments restricting rust and corrosion
- Removes alginate and stone from impression trays
- Economical and easy to use.
  One jar makes up to 34 gallons
- Environmentally friendly

9011100  Six, 800g jars with scoop dispenser

Vac Attak™
Evacuation System Cleaner

- Especially effective on prophy paste and fluoride gels
- Fast-acting
- Environmentally friendly
- Economical and easy to use
- Up to 100 cleanings per 800g jar

9011101  Six, 800g jars with scoop dispenser

Vacu Blast™
Liquid Evacuation System Cleaner

Powerful enzymatic evacuation system cleaner that complies with EPA/ADA’s Best Management Practices and is specifically formulated to be compatible with all amalgam separators.

- Neutral pH
- Phosphate and chlorine-free
- Anti-corrosive
- Non-foaming
- Refreshing eucalyptus scent
- Environmentally friendly

Use daily to keep your system operating at peak performance!

9011107  Case of 12 Bottles, 32 fluid oz (946ml)
Each bottle yields 64 treatments
32 oz bottle available individually through your dealer.
