Two Striper
— AN abrasive technology BRAND —

Experienced dentists know that not all diamond burs are created equal. That's why they've preferred Two Striper® for over 40 years.

Two Striper® delivers faster, cooler, more precise cutting than electroplated brands. What's more, Two Striper® stays sharp longer for multiple preps – and that means a more efficient workflow, less chair time, and happier patients.

Two Striper® is the only bur made from a select grade of natural diamonds with the proprietary P.B.S.® brazing process – the best bonding system in the industry. You can literally feel the difference.
