Safety Data Sheet
Vac Attak™ Evacuation Cleaner

*1. Identification

**Product Name:** Vac Attak™ Evacuation Cleaner
Premier® Dental Products Company
1710 Romano Drive
Plymouth Meeting, PA 19462
Phone: 610-239-6053 Fax: 610-239-6171
Emergency Phone: 610-239-6000

**Recommended Use:** Evacuation System Cleaner

**Restrictions for Use:** No known restrictions

2. Hazards Identification

**Classification of the substance or mixture**

- Corrosion
  
  Causes serious eye damage

- Harmful if swallowed.
  Causes skin irritation.

**Label elements**

**GHS label elements**

The product is classified and labeled according to the Globally Harmonized System (GHS).

**Hazard pictograms**

- Signal word Danger

**Hazard-determining components of labeling:**

tetrasodium ethylenediaminetetraacetate
disodium metasilicate

**Hazard statements**

Harmful if swallowed.
Causes skin irritation.
Causes serious eye damage.

**Precautionary statements**

Wear protective gloves/protective clothing/eye protection/face protection.
Wash thoroughly after handling.
Do not eat, drink or smoke when using this product.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
Continue rinsing.
Specific treatment (see on this label)
Take off contaminated clothing and wash before reuse.
If skin irritation occurs: Get medical advice/attention.
Rinse mouth.
IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
IF ON SKIN: Wash with plenty of water.
Immediately call a POISON CENTER/doctor.
Dispose of contents/container in accordance with local/regional/national/international regulations.
Classification system:
NFPA ratings (scale 0 - 4)

Health = 2
Fire = 0
Reactivity = 1

HMIS-ratings (scale 0 - 4)

Health = 2
Fire = 0
Reactivity = 1

*3. Composition / Information on Ingredients:

Chemical characterization: Mixtures

Description: Mixture of the substances listed below with nonhazardous additions.

<table>
<thead>
<tr>
<th>Dangerous Component</th>

</table>

*4. First Aid Measures

Description of first aid measures

General information:
Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation:
Take affected persons into fresh air and keep quiet.
If having difficulty breathing, contact emergency personnel immediately
In case of unconsciousness, place patient securely on side position for transportation.

After skin contact:
Remove contaminated clothing. Wash clothing before reuse.
If irritation occurs consult a doctor.
Immediately wash with water and soap and rinse thoroughly.

After eye contact:
Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes.
Seek medical treatment.
Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:
Give large amounts of water or milk.
Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed: No further relevant information available.

Indication of any immediate medical attention and special treatment needed:
This product contains sodium carbonate at a low concentration. While no adverse complications are expected, consider endoscopy in all suspected cases of poisoning. Perform blood analysis to determine if dehydration, acidosis or other electrolyte imbalances occurred.

*5. Fire-Fighting Measures

Extinguishing media

Suitable extinguishing agents: Use fire fighting measures that suit the environment.

Special hazards arising from the substance or mixture:
As with most organic solids, fire is possible at elevated temperatures or by contact with an ignition source. Fine dust dispersed in air in sufficient concentrations and in the presence of an ignition source is a potential dust explosion hazard

Advice for firefighters

Protective equipment: Full protective clothing and self-contained breathing apparatus should be worn.
6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures:** Refer to section 8

**Environmental precautions:** Do not allow to enter sewers/ surface or ground water.

**Methods and material for containment and cleaning up:**
Dispose contaminated material as waste according to section 13.

**Reference to other sections**
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7. Handling and Storage

**Precautions for safe handling:** Avoid contact with skin, eyes and clothing

**Information about protection against explosions and fires:**
Avoid dust formation and control ignition sources.

**Conditions for safe storage, including any incompatibilities**

**Storage:**

**Requirements to be met by storerooms and receptacles:**
Keep container tightly closed.
Store in a well ventilated place.
Store in a cool, dry place.
Do not store in aluminum, carbon steel, copper, copper alloys, fiberglass, brass, zinc, nickel or galvanized containers.

**Information about storage in one common storage facility:** Not required.

**Further information about storage conditions:**
Use PET, HDPE and/or related plastics for suitable packaging

**Specific end use(s):** No further relevant information available.

8. Exposure Controls / Personal Protection

**Additional information about design of technical systems:** No further data; see section 7.

**Control parameters**

**Components with occupational exposure limits:**
Federal guidelines suggest to treat the ingredient in this product as a nuisance dust, as no product specific guidelines have been issued for exposure.
Particulated Not Otherwise Regulated: OSHA (PEL?TWA): 15 mg/m3 (total dust); 5 mg/mg3 (resp fraction).

**Additional information:** The lists that were valid during the creation were used as basis.

**Exposure controls**
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Where acceptable concentrations cannot be maintained by general mechanical ventilation, local exhaust ventilation is recommended.

**Personal protective equipment:**

**General protective and hygienic measures:**
Keep away from tobacco products.
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work.
Avoid contact with the skin.
Avoid contact with the eyes and skin.

**Breathing equipment:** Not required.

**Protection of hands:**

![Protective gloves]

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Select glove material based on penetration times, rates of diffusion and degradation.

**Material of gloves**
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.
Penetration time of glove material
The exact break-through time has to be determined and observed by the manufacturer of the protective gloves.

Eye protection:
Have a safety shower and eyewash fountain readily available in the immediate work area
Safety glasses
Body protection: Protective work clothing

*9. Physical and Chemical Properties
Information on basic physical and chemical properties
General Information
Appearance:
Form: Crystalline powder
Color: White to orange
Odor: No significant odor
Odor threshold: Not determined.

pH-value @ 20 °C (68 °F): 10

Change in condition
Melting point/Melting range: Not determined.
Boiling point/Boiling range: Not determined.

Flash point: Not applicable.

Flammability (solid, gaseous): Not determined.

Ignition temperature:
Decomposition temperature: Not determined.

Auto igniting: Product is not self-igniting.

Danger of explosion: Product does not present an explosion hazard.

Explosion limits:
Lower: Not determined.
Upper: Not determined.

Vapor pressure: Not applicable.

Density: Not determined.
Relative density: Not determined.
Vapour density: Not applicable.
Evaporation rate: Not applicable.

Solubility in / Miscibility with
Water: >10%

Partition coefficient (n-octanol/water): Not determined.

Viscosity:
Dynamic: Not applicable.
Kinematic: Not applicable.

Solvent content:
Organic solvents: 0.0 %
Solids content: 100.0 %
Other information: No further relevant information available.

*10. Stability and Reactivity
Reactivity: No further relevant information available.
Chemical stability: Product is stable under normal conditions.
Thermal decomposition/conditions to be avoided: No decomposition if used according to specifications.
Possibility of hazardous reactions: No dangerous reactions known.
Conditions to avoid:
Avoid strong oxidizing agents, aluminum, heat, moisture and other incompatible materials as stated above.
Incompatible materials:
Oxidizing agents, strong bases, copper, copper alloys and nickel. Sodium carbonate reacts with fluorine, aluminum, phosphorous pentoxide, sulfuric acid, zinc lithium, moisture, calcium hydroxide and 2,4,6-trinitrotoluene and reacts violently with acid to form carbon dioxide.

Hazardous decomposition products:
Burning may produce carbon monoxide, carbon dioxide, nitrogen oxides, oxides of phosphorous, oxides of sulfur and sodium oxides.

*11. Toxicological Information
Information on toxicological effects
Acute toxicity:
Primary irritant effect:
on the skin: Irritant to skin and mucous membranes.
on the eye: Strong irritant with the danger of severe eye injury.

Additional toxicological information:
The product shows the following dangers according to internally approved calculation methods for preparations:
Sodium carbonate has been investigated as a mutagen and as a reproductive effector
Harmful
Irritant

Carcinogenic categories
<table>

12. Ecological Information
Toxicity
Aquatic toxicity: No further relevant information available.
Persistence and degradability: No further relevant information available.
Bioaccumulative potential: No further relevant information available.
Mobility in soil: No further relevant information available.

Additional ecological information:
General notes:
Water hazard class 2 (Self-assessment): Hazardous for water
Do not allow product to reach ground water, water course or sewage system.
Danger to drinking water if even small quantities leak into the ground.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

Other adverse effects: No further relevant information available.

*13. Disposal Considerations:
Waste treatment methods
Recommendation:
Observe all federal, state and local environmental regulations when disposing of this material.
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings:
Recommendation: Disposal must be made according to official regulations.
Recommended cleansing agent: Water, if necessary with cleansing agents.

*14. Transport Information:
UN-Number
DOT, ADR, AND, IATA: Non-Regulated
IMDG: Non-Regulated Material

UN proper shipping name
DOT, ADR, AND, IMDG, IATA: Non-Regulated Material
Transport hazard class(es)
DOT, ADR, ADN, IMDG, IATA
Class Non-Regulated Material
Packing group DOT, ADR, IMDG, IATA Non-Regulated Material
Environmental hazards:
Marine pollutant: No
Special precautions for user Not applicable.
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.
UN "Model Regulation": -

15. Regulatory Information:
Safety, health and environmental regulations/legislation specific for the substance or mixture
